Software Developer

Current status:

Looking for full-time opportunities (remote or in SF Bay Area). Preferably with Clojure/Clojurescript based stacks.

About me:

- Experienced full-stack software developer. Have built and worked on interactive, responsive, and adaptive web, and mobile apps; complex enterprise-level solutions; cloud services; APIs.
- Keyboard junkie. I relentlessly seek ways to enhance my productivity, evangelize and help my colleagues to reduce frustration associated with mundane, repetitive tasks. Known on Twitter as «M-x Tips» where I regularly post small code snippets and helpful tips.
- Polyglot programmer. I have attained proficiency in multiple programming languages, including: Javascript, Typescript, Coffeescript, Lua, C#, Python, Clojure and other dialects of Lisp.

I am familiar with Haskell, Ruby, Java, and Go. I also would love to explore other languages like Rust, Elm, Purescript, and OCaml
