Software Developer

Current status:

For the past 3 years have been mostly writing Clojure and Clojurescript and my interest today lies within tech-stacks based on languages with strong functional emphasis. I would be considering full-time onsite (San Francisco Bay Area) or full-time remote opportunities (anywhere).

About me:

- Full-stack developer. Worked on interactive, responsive and adaptive web apps, complex enterprise-level solutions, mobile apps, cloud services and APIs
- Team player. I have built, trained and lead small teams of developers
- Keyboard junkie. Relentlessly seek ways to improve my own productivity and evangelize others. I consider years spent mastering Vim, Emacs and plethora of other tools is my best lifetime investment
- Polyglot programmer. I have attained proficiency in several languages including: Javascript, Typescript, Lua, Coffeescript, Livescript, C#, SQL, Python, Emacs-lisp and Clojure.

I am familiar with Haskell, Ruby and Java. I also would like to explore Rust, Elm, Purescript, OCaml and Racket

Professional experience

Mayvonn

Senior Software Developer

Since Aug 2018

Oakland, CA

Components

clojure, clojurescript, kafka, re-frame, docker, jenkins, aws
